

Evolution of Indian Biofuel Policy

Biofuel Policy Evolution (Ethanol) in India

- Government of India has been promoting ethanol blending in fuel in various forms since 2003
- National policy on Biofuel notified by government in 2018, targeted 20% ethanol blending by 2030
- Govt revised 20% blending target by 5 years from 2030 to 2025
- 10% blending target was achieved 5 months before schedule in May'2022; 20% blending target achieved in July 2025
